ABOUT DR. LAKESA

Dr. LaKesa B. Mitchell is a TEDx speaker, best-selling author, and founder of the *Voice-Activated Framework*. As a Neural Architect, she specializes in training others to rewire the brain through life-producing phrases that unlock human potential and create powerful shifts in learning, leadership, and life.

With over 30 years in education, leadership, and personal development, Dr. Mitchell has transformed school cultures, trained executives, and empowered thousands to reshape their mindsets for success. Her expertise spans neuroscience, resilience, leadership, and communication, making her a sought-after voice in education, corporate sectors, and faith-based communities.

As a former principal and college professor, she has firsthand experience in cultivating high-impact learning environments, developing strong leadership, and helping students, educators, and families rewire and recalibrate. Today, she speaks across education, corporate, and faith-based spaces, sharing neuroscience-backed strategies on resilience, cultural climate, and communication.

Schools and organizations book Dr. Mitchell because she brings more than insight—she brings transformation. Her audiences leave not only inspired but equipped with tools they can use immediately to unlock potential, shift environments and build resilience. With a unique blend of neuroscience, storytelling, and practical strategies, Dr. Mitchell delivers experiences that ignite lasting change.
